IV. Public Comment

Velazquez

- Radha Patel: "Hi everyone, it is Radha the CALPIRG chapter chair for our chapter here at UCLA. It is so great to see you all again. I hope you have had a great spring quarter so far. I just wanted to give a brief update on where we are so far. To start we want our campaign to phase out single-use plastics and I just want to thank you all for helping pass the student government resolution and the EVP office for sending letters to the LA County Board of Supervisors for the campaign that helped us win and make our LA community a cleaner place and right now we are in our pledge drive funding drive working to continue the feat by banning unnecessary plastic packaging from online retailers and I am sure you all know that we are funding for a 10 dollar per term fee students can opt into adding to their bruinbill which gives us political power, staff training and resources it takes to run these campaigns and win them. In 2020 alone, online retailers actually produced over 600 million pounds of single-use plastics and that is why we are working to pass a bill reducing plastic waste from online retailers and through our pledge drive we will build the people power it takes to convince the legislator to pass this bill. Lastly, this will be my last week as a chapter chair of CALPIRG students. Next week we will be electing our new board for the 2022-2023 academic year and I can't wait for you all to meet them. It has been an honor representing our organization and our school for my last year and I can't wait to see all the amazing accomplishments our student activists will make along the way."

VI. Special Presentations

VII. Appointments

VIII. Officer Reports

A. President Velazquez

- The following Saturday we will be having the Future Student Leaders of Color. If any of you are willing to speak to these students please reach out to me or my office. We would really appreciate that and I know these students would also really appreciate hearing from you all.
- I had a meeting today with the academic senate and we discussed how it is going to look like going back to campus with the mask mandate off. I really tried to emphasize the point that a lot of people are concerned with going back and how some people are not comfortable being around people who are maskless. They did not have anything to say except that modules existed and how these can help protect students.
- We also have an upcoming meeting with the vice chancellor along with President Drake regarding what has been going on in our campus individually.

B. Internal Vice President Gatica

-

C. External Vice President Written Wang

- Our state relations team is heading up to Sacramento in person for our first in person lobby meeting of the year so that is really exciting.
- We are working with the women's empowerment coalition for the Acquire campaign on menstrual equity to establish a women's center here after all the great work that especially SWC did on installing menstrual products in all the bathrooms.
- We are also working in Double the Pell week and doing a lot of action so we would really appreciate some support on social media as we do that.

D. General Representative 1 Written Valles

E. General Representative 2 Written Pungchai

- 30k in surplus funds transferred to ECRT for Unexpected Travel Expenses Support Grant. FSC and GR2 must work on advertising and comms. Will talk to OSSA people.

F. General Representative 3 Written King

G. Academic Affairs Commissioner Quint

- This past week, I have been communicating with the learning management systems team and the academic senate to work on the syllabi shopping program and how students can get access to their syllabi before enrolling and once they do enroll in their classes.
- I also had a meeting this Sunday to facilitate our social justice mentorship program with the LA youth.
- We are still looking for more note-taking scribes to volunteer their notes for folks who request notes for their different classes so if you know anyone who would be interested, dm us on instagram.
- I also had a meeting yesterday with Student Affairs and parenting students in continuing the conversation to institutionalize accommodations for parenting students and we just discussed next steps in regards to meetings with UCOP and Title IX.

- Jessica: "Hello, just really quick on the community fund. I just wanted to ask if you don't mind forwarding the guidelines to the webmaster so you can get them up on the website. We finally have a new one hired so we will make sure to get him caught up on anything. I also wanted to clarify, I know you mentioned stipends but I just want you to be aware of the processing times. We are still short staffed in SGS so if someone is submitting an application week nine don't be surprised if it's going to take over the summer to get the REQ form processed. The other thing that I wanted to just quickly mention because I realized elections are kind of happening later this quarter than they usually do, I wanted to throw out a suggestion to all those offices that have appointments. I think it would be a good idea to figure out which ones need to be appointed by week 10 of spring quarter and then update any applications with dates or academic year information and just go ahead and get the applications live so that we can start receiving applicants just to help the upcoming board because their first meeting won't be until Week 8 and they only have week 8-9-10 to make some of these essential appointments that have to happen before summer and so it just crunches the timeline severely if they have to try to put apps out and publicize to the student body. We will also be coming back next week with some dates for an installation ceremony. I also just wanted to take a quick poll in terms of whether everyone is okay if we do an in-person ceremony. This is separate from our council meeting and it is something we typically do on a weekend outside of council. Incoming and outgoing elected officers usually invite some family members to attend and it is kind of formal."
