King

- Clara: "Alright, hi guys. My name is Clara, the CALPIRG Chapter Chair at UCLA. I am here to give a quick update on what we are doing. For just a reminder, CALPIRG students is an activist group that works to empower students to make change before graduating. We have chapters at all the UC's. We work on issues like the environment, youth voting, and public health. This quarter we are running campaigns to reduce plastic pollution, register students to vote and address students' basic needs on campus. Right now we are working on the recruitment drive to get a lot of students involved with us. So far, we have reached 700 students to educate them on our camping. WE have over a 1000 students who are interested in helping out with the campaigns and we already have 55 students who have already volunteered with us this quarter. ON Thursday, we will officially launch our campaigns with our biggest meeting of the quarter. ALSO this Saturday, our chapter is hosting a regional conference with students from CALPIRG Chapters at UCSD, UCR, and UCSB. Also on Sunday, we are participating in a beach cleanup at Venice beach to clean up our community. Have a great rest of your meeting!"

VI. Special Presentations

A. <u>ASUCLA Special Presentation</u>	Abbassi
<ul style="list-style-type: none"> - Pourria Abbassi: "My name is Pourria Abassi. I have been blessed to have been a part of ASUCLA for four and half years. A highlight of all of the work that I have done is actually with USAC. A couple of things that we have worked on is the Black Bruin Resource Center to help with the students and others to bring it into fruition. Specifically during Covid, we worked to give relief funds to students and the most recent collaboration has been very effective and successful for the student body. This has been the CALFRESH EBT program. So as you all know, we are among the very few universities who accept CALFRESH EBT in our market. This has been largely in part to the students within USAC in association with ASUCLA either externally or internally. ASUCLA is an umbrella organization so GSA and USAC and Business Enterprises and Student Media are all a part of ASUCLA. We are focused on students. That is why we exist. I am here to serve all of the operations in support of the students. At the same time we need to balance it with the long term success of the organization as a whole. We have existed for over a hundred years and we are planning to be in existence for the next 100 years. This is a very important year for us as we envision the future of ASUCLA. The future of campus and we are looking at the long term plans. As you all know that in 2028, the Olympics are coming to UCLA and the campus is going to be a venue for the Olympic village and they are for sure going to be opportunities for students and ASUCLA to play in this world wide venue that is going to be engaging with the Olympics. As we move forward, just a couple more things to know about ASUCLA. Their whole strategy of the organization is built on four pillars. One of them is to be the employer of choice on campus. As you know, you are all the largest employer of students on campus. We have 1,500 students that work for ASUCLA. Students number the career employees 8:1. So when we talk about students, for students, governed by students, it really comes into fruition at ASUCLA. So the majority of our employees are students and I actually report to the Board of Directors that has a student majority. We try to do our best to realize the aspirations of the student body in the work that we do as we move forward. We want to be the service provider of choice. What does that mean? That means that the service that we provide, we want the students to come to us first. Whether that is food operations, retail operations, design a shirt for your event, we want to be that service provider of choice. The third one is to continuously look at innovation and creativity. That is the mark of the Bruins. That is why you are at UCLA. To innovate, create and make the world a better place in all the areas that you are interested in and we are here to support you in that aspirational goal. And lastly, is continuous improvement. We want to improve, we don't have everything right but we all have to work together to make changes and improve together as we move forward. I am also very happy to say that I asked the chair and co-chair of the Board of Directors to give a presentation. They are already ready and I don't want to take any more time away from them. So very soon you will all receive invitations to meet us in a meet and greet. No agenda item, it is just to get to know each other. That said, representatives of SGS are all here to support you. Jessica, Archie, and Patty are all here to help you and support you in this journey. That being said, your journey doesn't end here, it goes beyond UCLA. That is 	

why we provide workforce training, giving you opportunities to grow as individuals. Lastly, just to share. I am a Bruin myself. This is my alma mater and when I went to UCLA, I loved it here and that is why I am back. It is a blessing to be a part of this organization.”

- Appointments are being filled in.
- The TSC is having a transfer scholarship campaign in kahoots with Transfer Alumni. We are trying to raise 10,000 dollars for a scholarship. If you are inclined to contribute to this, it would be great.
- I am very excited for Jayda Jackson in the appointment passed today and what she will do. Academic freedom is an important issue for transfer students so this appointment is very important and I am excited to work with her.
- Transfer students feel pushed aside with access to the hill, so currently trying to solve that issue for the next coming school year.
- I am a part of UCLA's only Christ centered Fraternity and every Thursday, we provide free food to the community, no questions asked from 11pm -2am so if you know anyone is food insecure, please send them our way. Our house is on a frat row, on landfair.
- Shout out to UCLA Football, go to the game this Saturday.
- I also want to address what happened earlier in the meeting. I understand the idea of making sure comments are not too personal. I don't think being personal with the student body is a bad thing. In fact, I think it is the problem of student government across the country. I feel that we could provide a better service to the student body if we have personal relationships. They are not just a student id, they are a person applying for a real position. A little shout out doesn't hurt here and there.

Luna, Alexander, Moran, Klimoski, Archie II

- Orlando: "Same reminder as last time that this is the last week to re-register your student organization and or start a new org. Friday at 9pm is the deadline and at that point, organizations won't be able to re-register until Winter Quarter."
- Jessica: "Hi everybody, I do have a handful of updates so bear with me. The first thing I want to mention is that I have been getting a few questions for the BOD Funding Application and so I did reach out to Dakota that there have been a couple questions. It looks like the deadlines have not been updated from last year and the application is not available on myUCLA, so I just wanted to make all of you aware so if you are in contact with Dakota you can pass on the information. It is also just a good reminder for anybody with a funding source. If your funding application resides in myUCLA and you need to update anything, you need to send it through Chris. I will find out if he is the same contact point for that. If it is housed through a weblink on our website, you can send it to our Webmaster. ASide from that, I also wanted to mention that we have Chrsitina from ASUCLA reaching out to all requesting information for our Entities Newsletter so that is basically any information that USAC wants to share. I dropped an example of one in the past in the chat. It is good to start thinking about now and things you want to highlight and it features content from USAC, GSA, Student Media, and Communications Board. All of the entities of ASUCLA. Another quick update for office cleanout. We have been getting some notices from our janitorial staff that there have been stuff left out in the hallway so just a reminder that if you do have items that need to be removed, coordinate with Archie and I.

Two more things. We have a few signatures that need to be added to our signatory form for SGA. If you manage a fund that does a lot of REQ forms, we will need that signature. Carl, Dakota, FiCom Vice Chair all need signatures. The last thing. There are a couple new student technology groups that are seeking appointments. I sent you all an email about it but I was able to meet with Kelly Aruda for more information about what the committee is working on. I am going to send you the committee descriptions soon. They are looking for 1 year appointments and looking for people who are interested in technology. That's it."

- Archie: "I just wanted to chime in tonight and give a report that I will be reaching out to you guys. I have already started doing that and met with some of you already. I just wanted to say that I would love to help you and be a resource with any initiatives that you are looking to do. Thanks and good night."
- Patty: "So I have good news, another member of the SGA team has been added. Some of you may have seen some emails come through from Joshua Shaw. He is one of our accountants. He was working as a temp employee but we are really excited to bring him on full time. We are working diligently on the audit process right now. Please come meet us so that we can get our process streamlined. Working to close out and restart. The more we can turn in earlier the better. We are also working to see how we can streamline our processes and give you funding as soon as possible. Any of your directors in charge of your finance please have them come meet us. It is really hard for us to audit the requisitions if we don't know where the funding went to. Thank you!"
