## **IV. Public Comment**

Hammonds

- Clara: "Hi, my name is Clara and I just wanted to give you guys a quick update this week. Next week we are doing our fundraising pledge drive and we are going to sign up a thousand new due paying members in the next two weeks. So far we have 246 signed up. As a quick reminder, CALPIRG is entirely student run and student funded. We have around 30,000 UC student members across the state who opt in to pay a \$20 fee per quarter which supports CALPIRG. This allows us to have a group of people that we can represent their interests in front of elected officials. Right now we are supporting a bill to ban plastic grocery bags across California and it is going to be introduced next week and then at the end of February we are going to lobby in support of it and other bills."
  
- Sofie Wells: "Hello everyone, my name is Sophie Wells and I am the president of Shenanigans Comedy Club here at UCLA. We are a SOLE registered club and I was told to come here by my SOLE advisor because to say that we have had problems with funding is an understatement. We have applied to funds and then they get approved and so we spend the money and then they tell us, oh actually you know, never mind, we ran out of money and then we never received the funding even though we spent all the funds in the first place. I have all of the email documents and this was an actual event that happened last year to us by the Arts Restoring Community (ARC) Fund. We were approved in May for an event that happened in June and then the weeks kept coming up and I kept emailing saying, Hey how do we get our money and it was radio silent. Eventually, our event did pass and we spent all the money on it because it was

approved and then they say that they ran out of money. It doesn't make sense to me. I have sent a bunch of emails and they are not responding. My advisor told me to come and mention this during public comment because not only Shenanigans Comedy Club this has happened, but to many other SOLE registered clubs. This is the only way that we can make comedy happen on campus because we are the only comedy club on campus. I am urging that you guys take some steps forward to make sure that these clubs do get money that we were owed last year. Thank you for listening.”

- Alicia: “I will talk to my funding director and see what we can do and potential see what we can do about that allocation that you mentioned because we have been helping some organizations with that because our main budget ran out of money but some of our other accounts didn't do we have been transferring funds to make sure that those allocations that you mentioned are getting covered. Also just for everyone, we are hiring for our staff right now so if you want to bring that up to your own committees to see if they would be interested in helping run the fund that would be great.”

- Public comment is closed at 7:16pm.

- Overall Office
  - Attended the SOCC conference this weekend in Merced. Had the opportunity to hear about the various works and efforts going on by UCSA as well as the problems other schools have and how we can collaborate with one another. Shoutout EVP!
  - What has happened with Opportunity 4 All is absolutely shameful and the Regents should feel extremely ashamed of themselves for failing UC students yet again by not being able to provide for thousands of students an opportunity to provide for themselves and gain work experience. Anything but shaming the Regents about this is complicity in the continued ostracization and mistreatment of undocumented people.
  - Will be posting highlights of the staff behind my office on our social media! Very excited to show off the people who make the work I talk about possible.
  - Happy Birthday Thyra!
- Platforms:
  - Bruin Health
    - KN95's are FLYING off the shelves, very telling about the current situation going on within the school, especially with the reduction of masks being provided by UCLA.
    - Will continue to provide these resources to the student body for the rest of the year, but we have noticed this pattern and want to bring it to your attention just because our data has shown an uptick in masks and hand sanitizers being taken at a higher rate.

- Bruin Worldwide
  - Working on pairings right now, many students from the last quarter are still interested and we are excited to finally proceed with programming.
  - Will be planning a social event in the near future to bring these students together and to bond.

I can assist with the application itself and if they have any questions please feel free to direct the students towards me. Last week we also had our one stop event for our registration. If groups fail to register, please direct them towards me and we can see what we can do to work with them."
  - Jonathan: "A reminder from SGA, if you are a funding body chair or if you can pass this information to the funding body chairs that you know, anytime allocations are made and then approved by Council, SGA needs those so that they can issue your codes and then you can let people know. I know that they have been reaching out to a couple people this week from those that they have not heard from and have not gotten their allocation. We cannot give any groups their money until you have given us those allocations. Thank you for being diligent about those remaining appointments. A new one that I want to highlight this week is the Drug Free Schools appointment but it is great to hear about the Distinguished Teaching Award. Also another reminder from SGA, next Friday is your last day to turn in all requisition forms. If we don't have them by Friday, accounts will be closed and you will be forfeiting said money."

  - By vote of 11-0-0, the motion passes and the Books For Bruins Funding Guidelines is approved.

## **X. New Business**

- A. Discussion about UC Student Regent O and A Jussim
- Eva: "So as Orlando mentioned earlier, the student regents are coming to UCLA and part of this is because the application process for the new student regents round is coming up and EVP's help in voting for them. EVP was naked to help coordinate a couple things and that is why I am bringing this to you all's attention today. They want to schedule a 60 minute meeting with them so 4 minutes for all 15 of us to chat about what we want and obviously we all have a lot to talk about and so I was thinking we could set up an agenda for this meeting so we actually get things covered. The second thing is that they are doing a Town Hall that I think SOLE is organizing. More on that is TBD. Today I really want to specifically discuss what you all would want to talk about at this meeting with our student regents.
    - Things suggested to add to meeting agenda:
      - Addressing safety on campus in terms of Islamophobia and anti-semitism
      - UC Wide commitment to an HSI by 2025
      - Budget cuts as a consequence of the TA strikes
      - Transfer pilot program

## **XI. Adjournment**
